WORK EXPERIENCE

Designer Engineer

Kromberg & Schubert Si [10/2017 – 05/2019]

Address: Sibiu (Romania)

City: Sibiu

Country: Romania

My role in R&D department was about concept's development and giving technical solution, optimisation and adaptation of actual products. Also I was in charge of designing 3D models and project documentation.

Designer Engineer

Bertrandt [05/2019 – 11/2019]

Address: Bucuresti

City: Bucharest

Country: Romania

I've realised 3D models for car interior from plastic parts like: Dashboard, Face doors, HVAC, Multimedia Screen, Airbags.

This job also included technical documentations and 2D drawings.

Site design engineer

Huawei GSC Romania [11/2019 – Current]

Address: Bucuresti (Romania)

City: Bucharest

Country: Romania

In this department Site design I've worked for KPN client Netherlands:

QC installation:

- I've made the verification for QC installation at swap equipments of 2G/3G/LTE/5G depending of scenarios and existing standards agreed between Huawei and KPN client;
- Support the team on site with detailed information taking into account compliance with the KPN standard for ensuring a better quality.
- Comparing the installation with the design to see if they respected the position for equipments on site;
- Improve collaboration with Frontlines and weekly reports/meetings with Frontlines;
- Also I used ISDP Smart QC, SIMS space, E-survey, ISDP Rollout Plan.

ASBUILT:

- I've realised ASBUILT drawings beginning from EP drawings and comparing the pictures after installation the site from Smart QC and E-Survey to see if they have respected the position or which is the new position;
- Also I had the support from Frontline for unclear situations when there is not all the details to realise the drawings;
- I used ISDP Smart QC, ISDP Rollout Plan to upload the drawings, E-survey, also technical documentation.

Freelancer Web developer Beginner

[06/2020 – Current]

City: Bucharest

Country: Romania

- In this period I've made five courses on Udemy (Javascript), Codecademy(HTML, CSS, Javascript) and Huawei(Python), also now is still in progress React course on Codecademy;
- I've realised some templates with HTML/CSS like: Pulse card, Progress bar, interface for an app to appear (gym, weather, etc.) and I've made responsive to mobile, tablet and desktop platform.
- I used GSAP Animation;
- Also, now I'm working at a ToDo application with HTML/CSS/JS and the task for it is : Register/Login, appear the task on app, edit/delete/check the task and linking the app with the backend part like for each user to create unique list of tasks. This app is done in proportion of 85%.
- I know how to use GitHub.
